The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our **CDN** subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the **CDN** now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

CDN QUARTERLY II newsletter

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly Greysheets included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise CDN Quarterly prices, and a lower Sell will normally lower them.

The CDN Quarterly reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$3.00 each • 11-25 issues - \$2.50 each • 26 & over - \$2.00 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**
from June 14, 1963 to December 20, 2013, now includes 2,577 issues.
At \$2.00 each this would normally cost \$5,154, but a complete set
is only \$3,375.

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2013, now includes 449 issues. At \$2.00
each this would normally cost \$898, but a complete set is only \$635.

Complete set of the **CDN Quarterlies**
from January 1992, to December 2013, now includes 264 issues, a
complete set is only \$360.

Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies**
now includes 3,290 issues, and extra savings at only \$4,125.

Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)**
from August 22, 1986 to December 20, 2013, now includes 1,355 issues.
At \$2.00 each this would normally cost \$2,710, but a complete set
is only \$1,795.

Complete set of the monthly **Currency Dealer newsletter (Greensheet)**
from September 1980 to December 2013, now includes 400 issues.
At \$2.00 each this would normally cost \$800, but a complete set
is only \$580.

The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a *willing and knowledgeable* buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the **CDN** now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring **all** possible *sight-seen* transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified *sight-unseen* market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the *highest wholesale* prices seen nationally, which assume a *willing and knowledgeable* buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by *retail* clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of *sight-seen* trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$3.00 each • 11-25 issues - \$2.50 each • 26 & over - \$2.00 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**
from June 14, 1963 to December 20, 2013, now includes 2,577 issues.
At \$2.00 each this would normally cost \$5,154, but a complete set
is only \$3,375.

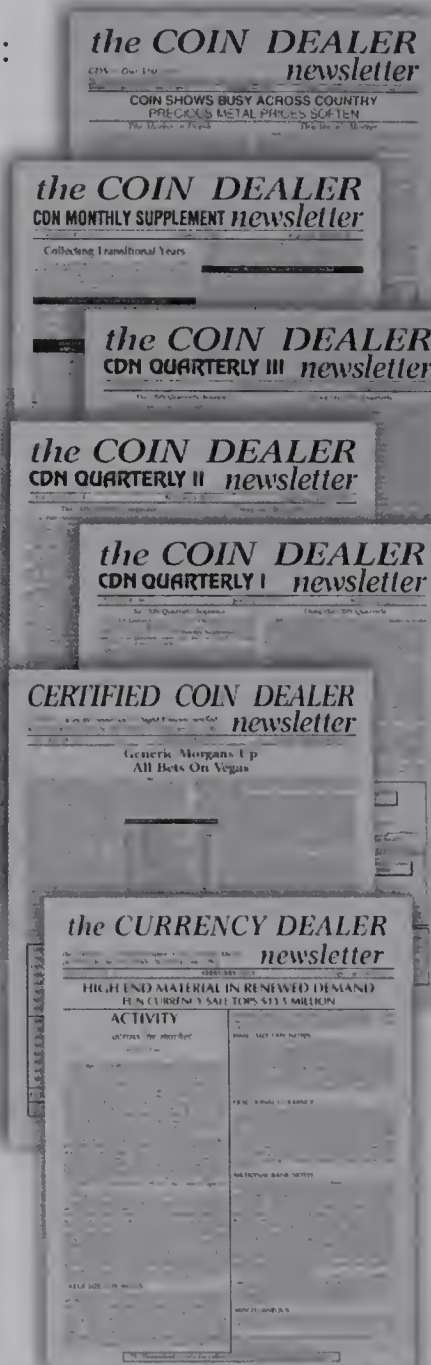

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2013, now includes 449 issues. At \$2.00
each this would normally cost \$898, but a complete set is only \$635.
